## News Release

For Immediate Release: August 26, 2019

### **DOW completes Kōloa Well 16 A & 16 B Site & Building Improvements Project**

KŌLOA - The Department of Water (DOW) held a dedication ceremony on August 1st to commemorate the completion of work on its Kōloa Well 16 A and 16 B Site and Building Improvements Project.

The cost of the project was \$3,667,032.67. Work included installation of a brand new well pump, discharge piping, a new disinfection system and construction of a new motor control center and it was successfully completed for the Kōloa water system as part of this project.

“I want to commend the collaborative teamwork of our Contractor and Department staff for a job well done”, said DOW’s Dustin Moises, Chief of Construction Management as he addressed the attendees at the ceremony. “When you look at the work that has been accomplished here (at the site), compared to its previous condition, I think we can all be proud of this accomplishment. This project helps to strengthen our water system and will improve our services for the community”.

DOW acknowledged contractor, Unlimited Construction, Inc. for their hard work on the project, in addition to subcontractors Koga Engineering & Construction, Inc., Dorvin D Leis Company, Inc., Grace Pacific LLC, Wasa Electrical Services, Inc., Pacific Concrete Cutting & Coring, Inc., Alii Landscaping and Maintenance, Coating Works Hawai’i, Inc., Pural Water Specialty Company, Inc., Simmons Steel Corporation, Beachside Roofing LLC, Mahelona Sheet Metal Fabrication LLC, Derrick’s Well Drilling & Pump Services, Inc., Esaki Surveying and Mapping, Inc., Hirata & Associates, Inc. and ENPRO Environmental.

Reverend Jade Waialeale-Battad of Ke Akua Mānā Church officiated the dedication ceremony.
